

**REMARKS**

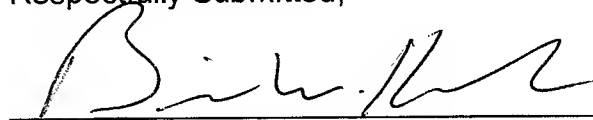

The Applicant respectfully requests reconsideration.

In the Examiner Interview dated May 12, 2009, the Examiner requested that the terms "such as" and "small" be removed from Claim 33 since these terms are indefinite. The Examiner also requested that Claim 33 be revised to focus on the claimed method steps, and not on the features of the device. Appropriate amendments have been made in response to those requests.

In the Examiner Interview, the Examiner also advised that the drawings are not properly labeled. Specifically, the drawing labels are the same size as the reference numerals. Replacement drawing sheets are submitted herewith to overcome these informalities. No new matter has been added.

The Applicant respectfully submits that this paper is fully responsive to the Examiner Interview. The Applicant respectfully requests that the Examiner enter the amendments and the Replacement Sheets into the record. The Applicant submits that the claims are in condition for allowance and respectfully requests favorable consideration.

Respectfully Submitted,

A handwritten signature in dark ink, appearing to read "Brian W. Hameder", is written over a horizontal line.
